

Know someone who's made a difference? Let's hear about it!

The CLSoU program is excited to announce that there are now two recognition walls, located in both East and West spaces. As part of our employee engagement initiatives, we've created these areas to give all employees and vendors an opportunity to share a quick message about someone who has made a difference for them. You can share - via a signed *or* anonymous note - a gesture someone made that had a positive impact.

Examples of possible reasons include:

- A conversation that left you feeling better afterward
- Someone who picked up lunch for you when you were stuck in a meeting
- A person who did a great job explaining a difficult concept
- Someone who took on a task that made your day a little easier
- The person who filled the area candy jar, brought in treats, or otherwise brightened the day
- Someone who stayed late, worked through lunch, or logged on late at night, making the extra effort to get the job done

So give it some thought – who has done something notable recently? – then stop by one of the walls to give those co-workers some well-deserved recognition!

A huge THANK YOU to the program Fun Committee,
who assisted with the recognition walls
